MONEY, STOCKS AND GRAIN

Partial Let-Up in Monetary Stringency a Relief to Wall-Street Business.

Light Transactions Yesterday and the General List a Trifle Lower-At Indianapolis Receipts of Cereals Still Heavy.

THE BOND MARKET.

Railway Issues Opened Weak and Closed Steady on Sales of \$764,000.

At New York, yesterday, money on call was active, ranging from 4 to 20 per cent., the last loan being made at 5; closing offered at 6.

Prime mercantile paper, 6@8 per cent. Sterling exchange was firmer, with actual business in bankers' bills at \$1.81 12 @4.81 4 for sixty days and \$4.84@4.844 for demand.

The New York stock market was irregular in the early trading and as a rule lower quotations prevailed. The general list yielded 4 to 4 on light transactions. The reduction in the posted rates of sterling exchange, however, induced some covering of shorts, and there was a partial recovery. The rise was checked by a brisk selling movement in Reading which carried that stock down from 16 to 14%, the decline being accompanied by reports that the proposed plan of readjustment had failed. Still later, when it became known that Baring, Magoun & Co. had ordered \$500,000 and purples, 64c; Pacific fancy, 64c; Pacific fancy, 64c; Pacific robes, 7c; Pacific mourning, 6c; the complexion of affairs at the Stock Exchange underwent a complete change. The solids, 6c; Simpson's oil finish, 64c; Simpson's finish, 64c change underwent a complete change. The improvement was stimulated by a let-up in the stringency in money, the rate for call leans having dropped from 20 to 4@5 per cent., and by advices from Washing-ton that Secretary Carlisle had, or would, issue an order for the prepayment of the government interest due July 1 on the four-per-cents, and currency sixes. The shorts were considerably alarmed by the change in the monetary situation and rushed in to cover only to find the supply of stock offerings was below their requirements. The general list rose is to 1 is per cent. As a rule the advance was well maintained at the close. The market closed firm in tone.

Railway bonds closed steady after a rather weak opening. Thesales were \$764,-000. Wabash debentures, series B, declined 2, to 26. Government bonds were firm, State bonds were steady. Closing

A Little More Activity Is Noticeable in Trade Circles, with Prices Unsettled.

The condition of the sidewalks on the wholesale streets yesterday gave evidence that trade was more active than for several days. Grocers report sugars and teas firm, while coffees are shaky. GRAIN UP AND PORK DOWN

Engagement of Gold at London Assisted in Preventing a Slump in Wheat.

June Closed at 6434c, Same as Yesterday, While September Recovered from a Depression, Final Figures Being Better.

TRADING AT CHICAGO. Heavy Receipts of Hogs Precipitated United

Selling of Provisions, CHICAGO, June 21 .- A report that \$1,-500,000 gold was engaged by New York banks for shipment by steamers sailing from England created a weak grain market into a strong one, and wheat and corn both recovered from breaks they made in the first hour. Provisions were weak on

heavier receipts of hogs, and closed at con-

siderable declines since yesterday. In wheat the opening was about 4 to 3c lower than the closing prices of yesterday. and, with only slight fluctuations, prices declined to for July and to for September, held rather steady, and the closing was same as yesterday for July and be higher for September delivery. The decline early was a continuation of the weakness which existed yesterday, helped along by the weaker and lower cables and the report on the French crop in an English journal, which said the damage to the French crop had been overestimated. There was considerable selling at the start, and a fair quantity of wheat was brought out in the broak. There was a good demand, however, at the decline, and a sharp rally in prices followed. There was talk of good buying of cash wheat here, but interested parties were reluctant about giv-ing any publicity to the transactions. Inquiry at the banks brought the information that all the principal institutions would continue to carry the wheat they had al-

Opening trades in corn were at 18@140 loss, but the Washington weather crop bulletin, together with better advices from abroad, had a bearish tendency and increased offerings accordingly, there being less support to the market, many shorts having covered on the late upturn. Owing to this lack of support the market soon sold off se more. At the decline there was increased buying orders, supposed to come from the East, which started prices up, and the estimate of receipts for to-morrow coming in light sided the advance, the price going up %c. The market afterward reacted 4@3sc, ruled steady, and at the close had lost nothing. In some quarters it was claimed that the big buying orders, instead of coming from the East, emanated from a local speculator, Charley Wright. The feature in oats was buving of July and selling of September at 3@3'sc difference. Prices were confined to %c range, and the close was at a slight decline for July, but at about the same price as yesterday for

ready advanced.

The provision trade got another dose of the same medicine given yesterday. The hogs were posted, not at 18,000 or 19,000, as estimated, but at 28,000 to 30,000. The Chicago Packing Company and other packing interests again undertook to sellshortribs. Again Wright brokers sold the market away from them. Then on the call Wright went in and bought fully 750,000 pounds. Lard was quoted 6d off at Liverpool. Pork was quoted lower, but there was scarcely any business. Closing prices were close to the bottom for the day. Compared with last night, pork is down 40c, lard .20c and

Freights were slow at 2c for wheat and 14c for corn to Buffalo and 340 for corn to Kingston. Estimated receipts for to-morrow are: Wheat, 67 cars; corn, 200 cars; oats, 170 cars; hogs, 24,000. The leading futures
